Let's do 3pm today. Charles and Mona - Which phone number should we use to reach you?

-Elizabeth

Hi Charles,

Let's set up a call. Can you let me know Mona's and your availability for this week? Dave is out for most of July, so if we were to follow your letter with our own, we would need to move on this quickly (or really slowly!).

Subject: Eureka Biosolids

Elizabeth,

Mona has reviewed my revised letter to the City of Eureka regarding the technical and regulatory challenges to the land application of municipal biosolids on Parcel M. She has a few comments/revisions that she'd like me to make and that we'd like to discuss with you. The primary issue is that we'd like to make it clear that to permit the discharge into waters of the US, if it is even possible given the challenges described in the letter, would require issuance of an NPDES permit and because the discharge involves implementation of federal biosolids regulations, regulations that we are not authorized to implement, the NPDES permit would be issued by the USEPA.

We will want to propose a way to craft this correspondence so that we can step out of the permitting process if the City submits information that it believes justifies issuance of a discharge permit. Your Dave Smith might be a good addition to the meeting.

Charles

Good meeting times:

6/23 after 3 PM
6/24 late morning
7/1 after 4 PM
7/3 morning
7/7 afternoon
